

CLAMS Digital Downloads

How to

- **download an eBook and open it in Adobe Digital Editions (ADE)**
- **transfer to a Nook eReader or Nook Tablet** (example shown: **Nook** from Barnes & Noble). Similar steps are required for the Kobo eReader.

NOTE: Nook eReaders and the Nook Tablet require side-loading for library ebooks, i.e., you must first download the eBook to a computer, connect the device to the computer and drag and drop the title from the computer to the device.

Register your eReader using device instructions before using this guide.

Preparation

If you do not have a free account at Adobe, go to <https://www.adobe.com/cfusion/membership/index.cfm> and create an Adobe account. Note the email address and password. *

The first time you use the eBook service you must download **Adobe Digital Editions** software. This free software is required to use ePub and PDF eBooks from the CLAMS OverDrive site. *(It is not required for Kindle eBooks.)*

Load the software from the opening page (<http://clamsnet.lib.overdrive.com>). You will find this under **Free Required Digital Software** on the left side of the screen.

When the free software (Adobe Digital Editions) download is complete you will be prompted to **authorize and activate** your computer. *(*same email and password used to set up Adobe account).*

This allows you to read ebooks on multiple computers using the same Adobe ID.

Do not skip this step.

Note: If you own a Nook (eReader or Tablet) both the computer and the Nook must be authorized with the same Adobe ID. The first time you connect the Nook to your computer you will be prompted to authorize the device.

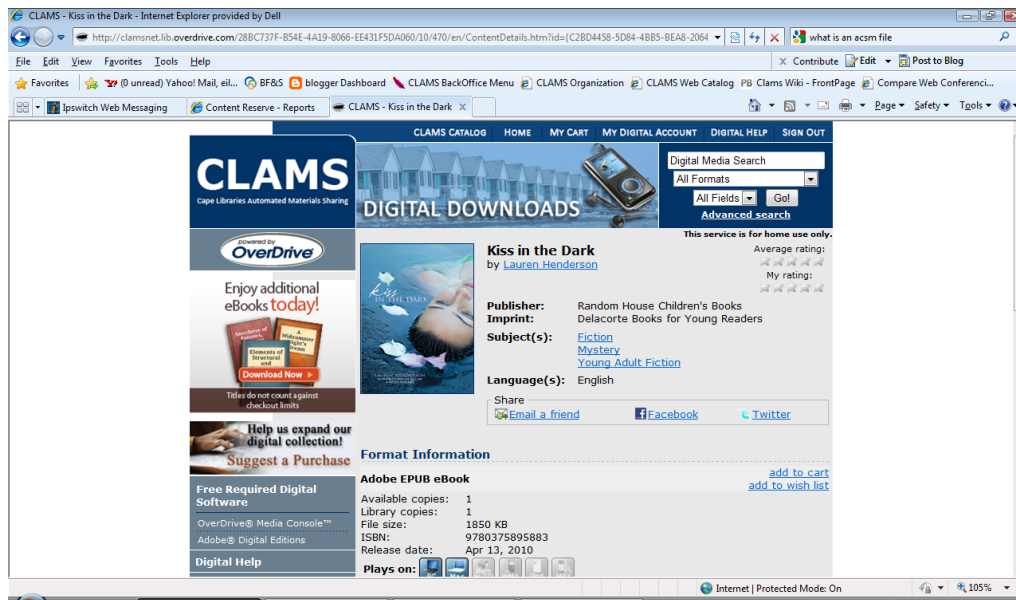

When you have completed these steps a shortcut to Adobe Digital Editions

displays on your desktop (on your computer not on device).

How to Transfer to a Nook eReader or Nook Tablet.

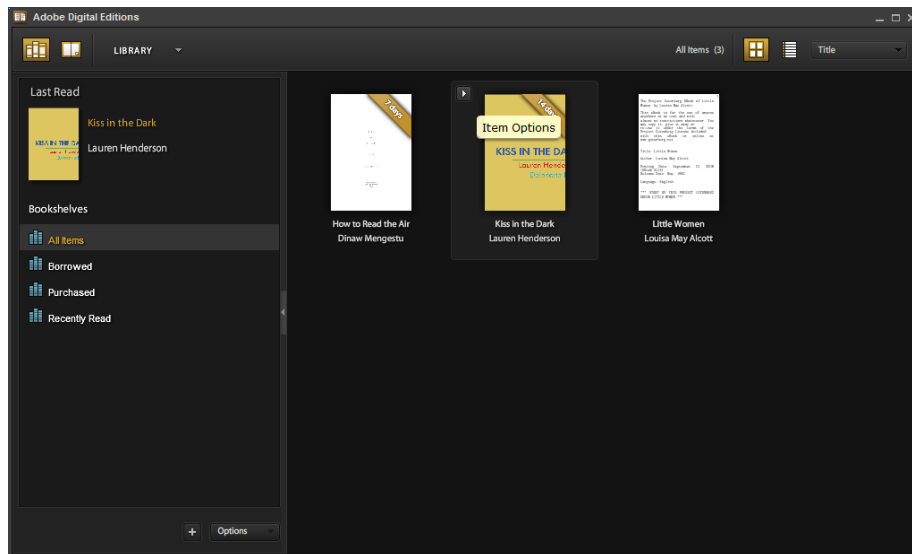

Attach Nook to computer

1. Open Adobe Digital Editions if not already open [on your computer]
2. Find the device icon ("media" for nook color, Nook for b&w Nook) on lower **left** side in Adobe Digital Editions [on your computer]
3. **Drag** the eBook to the device icon on lower left [on the computer]
4. Your ebook title will live in My Documents on your b&w Nook or in Library, My files, Digital Editions on Nook color.
5. Find the title in My documents or My files on your Nook to start reading.

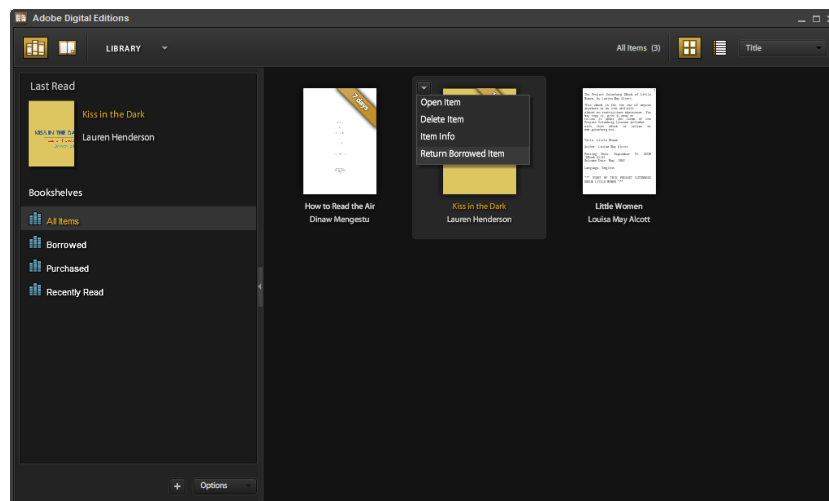

How to return a Title "early"

If you have finished reading an ebook **before the checkout expiration date** you may return it early.

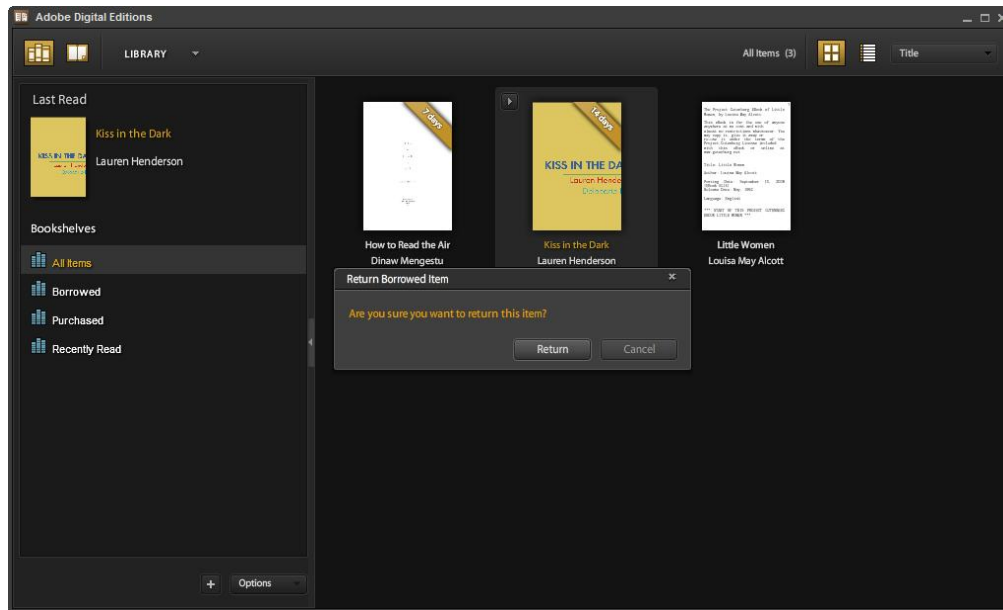

Click the arrow next to the title in library view to see **Item options**

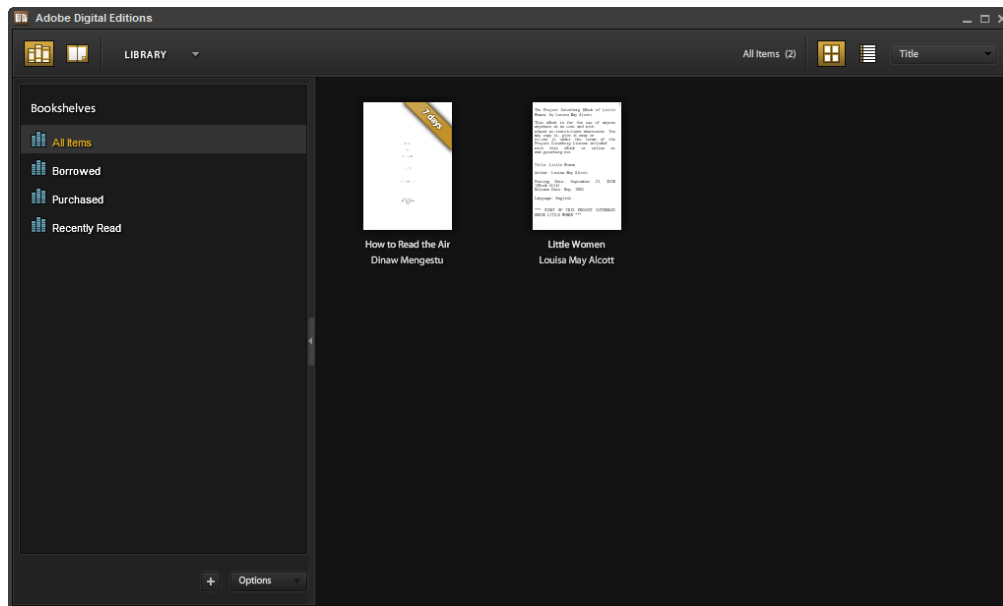

Select **Return Borrowed Item**

You will be asked
Are you sure you want to return this?
If you're sure then click
Return

It disappears from your library

Attach your eBook Reader or Nook Tablet to the computer and double click on the device icon on the lower left side under Bookshelves. Follow above steps to return item early.
Item must be returned on both the computer and eReader/Nook tablet.

This frees up one of your 5 allowed item checkouts so you may borrow another title.
It allows other patrons to borrow the ebook.

If you wait until the specified loan period has expired the title will become inactive in Adobe Digital Editions.

To delete the book jacket click the arrow next to the title in library view to see

Item options.

Select Delete

Are you sure?

If yes, then select **Delete**.
